Privacy Policy

What personal data SoftSkills Engineering collects through SoftStore.pk, why, who it is shared with, and what you can do about it.

COMPANY	SoftSkills Engineering
PLATFORM	SoftStore.pk
EFFECTIVE DATE	14 August 2026
VERSION	1.0
ISSUED	1 August 2026

1. Introduction

This policy explains what personal data SoftSkills Engineering collects through the SoftStore.pk platform, why we collect it, who we share it with and what you can do about it.

2. What we collect

- **Account information** — name, email address, phone number, delivery and billing addresses.
- **Seller financial information** — bank account details, held for settlement of marketplace sales.
- **Identity documents** — CNIC or business registration documents, collected for seller verification.
- **Order and transaction records** — what was bought, from whom, and its delivery status.
- **Seller business data** — product catalogue, stock records, staff accounts and in-store sales, held on behalf of the seller.
- **Technical data** — IP address, browser and device type, and pages visited.

WE DO NOT SELL YOUR DATA

Personal data is not sold, rented or shared with third parties for their own marketing.

3. How we use it

- To process and fulfil orders, including passing delivery details to the seller and the courier.
- To operate seller accounts, the POS register, inventory records and reporting.
- To calculate commission and settle seller payments.
- To send transactional messages — verification codes, order updates, security notices and policy changes.
- To investigate fraud and abuse and to meet legal obligations in Pakistan.
- To send marketing, where you have not opted out. Transactional messages about your own orders cannot be switched off while your account is active.

4. Who we share it with

RECIPIENT	WHAT THEY RECEIVE	WHY
Sellers	Your name, delivery address and contact number	To fulfil your order — and only for orders you placed with them
Couriers	Recipient details needed to complete a delivery	Delivery and cash-on-delivery collection
Email provider	Your email address and message content	Sending transactional mail
Hosting provider	Data at rest on our infrastructure	Running the Platform
Legal authorities	Only what is lawfully required	Where compelled by law or a valid government request

5. Seller data and isolation

A seller's business data — catalogue, stock, staff and in-store sales history — belongs to that seller. Every operational record is scoped to one business, and that scoping is enforced on each request rather than left to individual queries. No business can read another business's data.

6. Cookies and tracking

We use cookies that are necessary to run the Platform: the session cookie that keeps you signed in, the token that protects forms against cross-site request forgery, and an optional “remember me” cookie. The shopping cart is held in your browser's local storage, not in a cookie, and is not sent to us until you place an order.

We do not use third-party advertising cookies, cross-site tracking or device fingerprinting. Should any measurement cookie be introduced, the published cookie list will be updated before it goes live. You may refuse cookies in your browser, but blocking the essential ones will prevent you signing in.

7. Security

- Traffic is served over TLS.
- Passwords are salted and hashed; we never store them in readable form.

- Sessions use HttpOnly cookies with SameSite enforcement, and state-changing forms require a CSRF token.
- Sign-in endpoints are rate-limited against brute force.
- Stock movements are appended to an immutable ledger, so record history cannot be silently rewritten.

No system is perfectly secure. If you believe an account has been accessed without authorisation, contact us and change the password immediately.

8. Retention

- Data is retained while an account is active.
- After closure it is held for 30 days so a mistaken closure can be reversed, then purged.
- Financial and transaction records may be retained longer where tax or regulatory obligations require it.
- Sellers can export their catalogue, sales history and inventory ledger at any time, including during the wind-down period.

9. Your rights

- Access the personal data we hold about you.
- Have inaccurate data corrected.
- Request deletion of your account and data, subject to pending orders and legal retention.
- Opt out of marketing communications.

10. Changes and contact

Updates to this policy are shown by a revised effective date on the cover. Material changes affecting sellers are communicated before taking effect.
